How This Data Supports You

By integrating Managed with Inspection Express, all key data is centralised for:

- Efficient property and tenancy management.
- Simplified inspection reports.
- Enhanced communication between managers, tenants, and owners.

For more information or assistance with integration, please contact the Support Team.

Ready to Get Started?

1. Contact Managed Support team letting them know you'd like to set up the Inspection Express integration
2. Once they've let you know it's been activated, send an email to implementation@iproperyexpress.com
3. We will complete the set up from there, and let you know once it's complete!
